

NodeRed-IBMCLOUD

TeamID	PNT2022TMID00416
Date	11th November 2022
Project name	Hazardous area monitoring for industrial plant using IoT

The screenshot displays the IBM Cloud console interface. At the top, there's a navigation bar with various service icons and user information. The main header shows "IBM Cloud" and a search bar. Below this, the breadcrumb trail reads "Resource list / App details /". The title of the page is "Node RED GJNPF 2022-11-18" with an "Add tags" link. On the right, there's an "Actions..." dropdown menu.

The left sidebar contains two sections: "Details" and "Services". Under "Details", there are four rows of information:

- App URL**: <https://node-red-gjnpf-2022-11-18.eu-gb.mybluemix.net/>
- Source**: <https://eu-gb.git.cloud.ibm.com/gh211709/NodeREDGJNPF20...>
- Resource group**: Default
- Deployment target**: Node RED GJNPF 2022-11-18
- Created**: 18/11/2022

Under "Services", there's a "Cloudant" section with links to "Open dashboard", "Documentation", and "API reference", along with a "Credentials" dropdown.

The right pane is divided into three sections:

- Deployment Automation**: Shows "Name" as NodeREDGJNPF2022-11-18, "Location" as London, and "Tool integrations" with icons for Terraform, Ansible, and others.
- Delivery Pipelines**: Shows "Name" as ci-pipeline, "Status" as Success, and another entry named pr-pipeline with status "No stages detected".

A vertical button labeled "ASK A QUESTION" is visible on the far right edge of the console view.
